

Which Insulation is best to use in My Home?

There are many different types of insulation products available in stores which are meant for different uses. There is fiberglass, foams, cellulose, cotton, and more. If you'd like to find out which insulation should be used in an attic or in the basement or a crawl space or in other applications within your home, join *Bob Higgins-Steele* for the answers to these and many more questions.

Bob has 40 years experience as a Carpenter/Cabinet Maker and has done Interior Remodeling for the past 20 years. He and his family have lived in Ashby for 28 years. He is a solar energy enthusiast and is interested in all forms of renewable energy.

This seminar, organized by **Ashby's Energy Efficiency Committee** will be presented at the **Ashby Free Public Library on March 31, 2011 at 7:00 PM.** The attendees will be able to ask questions during the presentation. The seminar will also be **broadcast live on Comcast Channel 8 or 9.**
