

May 20th 2009, at 8:00 pm

Continuation of hearing DEP # 93-305, for NOI from Whitman and Bingham for Erickson Road, Lots A & B. Prepared for Cynthia Belliveau-Carlo, Westford, MA. for septic, well and proposed house. Chris MacKenzie = presenter.

Chris Mackenzie presented the Commission with two copies of the revised plan and one letter from Chuck Caron re: beaver pond.

The new plans show the house moved about 25 feet so that it is not inside the new wetland buffer.

There is discussion about the new plans and the labeling of the new wetland line as “edge of Beaver pond” rather than the Wetlands Boundary. On the site visit this new line had been agreed to be the new edge of wetlands.

Need to condition the project so that no siltation barrier are used that would introduce seed.

Motion to close the hearing pending the receipt a revised plan showing the new wetland bound. No receipt of plan would result in a continuation of the hearing until June 3, 2009. Made by Roberta. Seconded by Bob. Agreement that the new bound will be marked. And those markings reflected on the plan. Vote was unanimous in favor of the motion.
